

# Faster time to market within your reach

Be unstoppable with an All-in-one platform for easy development.

Timoni is an Internal Development Platform improving Developer Experience. We created it to make life easier for DevOps and SysOps, speeding up development of applications and helping them get the most out of CI/CD processes.

Unleash the unlimited creativity of your team.

## Launch without limits

### Visibility and complete control

One dashboard - all environments; make decisions based on complete data.

### Double profit - for business and IT

Timoni brings savings - both financial and operational.

### Amaze market with your speed

Create new applications, make changes - faster than the competition.

### Benefits for business

- ✓ Real savings by reduced costs and the number of specialists needed by up to 50%
- ✓ Scalable tool that keeps up with your company's needs - you only pay for the resources used
- ✓ Fast time-to-market - leave your competitors behind, release your products more efficiently

### Benefits for developers

- ✓ One CI/CD tool, GIT server, monitoring, centralized logs, ready-to-use components and much more
- ✓ Greater efficiency of DevOps and SysOps teams thanks to One-click deployment and One-click rollback
- ✓ Fast time-to-market - leave your competitors behind, release your products more efficiently
